

Project 1

Landscape Design Evaluation

landscape design should be planned and implemented carefully. The principle and elements of landscaping design and all other garden components and embellishments should be incorporated in the standard landscape. As a landscape expert try to assess the landscape at Debre Markos University's main LS compartment (At main gates of the campus, main library, around hall 5 and female dormitory). based on the knowledge you have; try to assess those sites by considering the following keys of LSD

- All Principles of Landscaping
 - ↳ Unity
 - ↳ Balance
 - ↳ Transition
 - ↳ Focalization
 - ↳ Proportion
 - ↳ Rhythm
 - ↳ Repetition
 - ↳ Simplicity
- Elements of Landscaping Design
 - Ψ Color
 - Ψ Line
 - Ψ Form
 - Ψ Texture
 - Ψ Scale
- ↳ Garden Components
- ↳ Garden Embellishments

NB: Finally you have to summarize the Good and the Bad feature of DMU landscape

Project 2

Dear student first you are kindly requested to choose a title on “current issue” in floriculture and landscaping in Ethiopia theme. Once your title is approved by the course instructor you can write the full document the issue that you are raised.

NB: try to submit the title within one week and attach it with this email ethiotrust@gmail.com
